

# Performance

Performance textured horse feed delivers an energy dense ration to your partner in competition or work that gets the job done.

## Benefits

- Textured feed with 13% crude protein and 9% fat from quality sources such as canola, soybean, rice bran, and flax
- Mixture of oats, barley, and cracked corn
- A high-calorie, high-fortified diet that keeps the weight on, and delivers enough energy so that the athletic horse remains looking, and feeling good while performing at it's best
- Includes the following ingredients: Stabilized rice bran, flax source, organic trace minerals, selenium yeast, mannan-oligosaccharides, *Saccaromyces cerevisiae* yeast, balanced ratio of amino acids, *Yucca Schidigera*, natural vitamin E source, B vitamins, and added salt
- Fortified with all necessary vitamins and minerals to meet nutritional needs for all stages of life

## Feeding Directions

Feed as the sole grain ration at the rate of 0.5% to 1.5% of body weight depending on condition, physical activity and/or production stage of the horse. For horses consuming more than 0.5% body weight per day, provide feed at a minimum of twice-per-day in equal portions. This is not a complete feed. Provide a source of good quality forage in the form of hay or pasture and clean, fresh water at all times.

## Feed Analysis

Crude Protein (min)	13%	Magnesium (min)	0.2%
Lysine (min)	0.7%	Copper (min)	60 ppm
Methionine (min)	0.2%	Manganese (min)	140 ppm
Crude Fat (min)	9%	Zinc (min)	225 ppm
Crude Fiber (max)	9%	Cobalt (min)	0.7 ppm
Starch (max)	29.5%	Selenium (min)	0.6 ppm
Sugars (max)	5%	Vitamin A (min)	5,000 IU/LB
Sodium (min)	0.4%	Vitamin D (min)	750 IU/LB
Calcium (max)	1.3%	Vitamin E (min)	150 IU/LB
Phosphorus (min)	0.5%	Vitamin B12 (min)	10 MCG/LB
